

# **Project 4:**

## **Data Driven Policy**

### **Recommendations for Virtual Health Resources for Persons with Disability**

**PI: Jolie Haun, PhD EdS**

**PM: Amanda Tweed**

## OUR GOALS TODAY

Review Project Four  
Aims and Purpose

Update on Project  
Progress and Validate  
Integration of IEP and  
LEP Codebook Input

Discuss Next Steps of  
Project Four and  
Deliverables

THANK YOU FOR YOUR TIME AND EXPERTISE

# Project 4 Overview

“[During COVID-19] I did a fair amount of telehealth which included video, actually no, I’ll take that back. A lot of telephone contacts. **Videoconferencing was not as successful due to the cognitive impairment of the patients.**” -Neuropsychologist

## Problem

Universal policy mandates for virtual health to enhance healthcare access exist, however research is needed to inform how to meet the access and user needs of persons with TBI

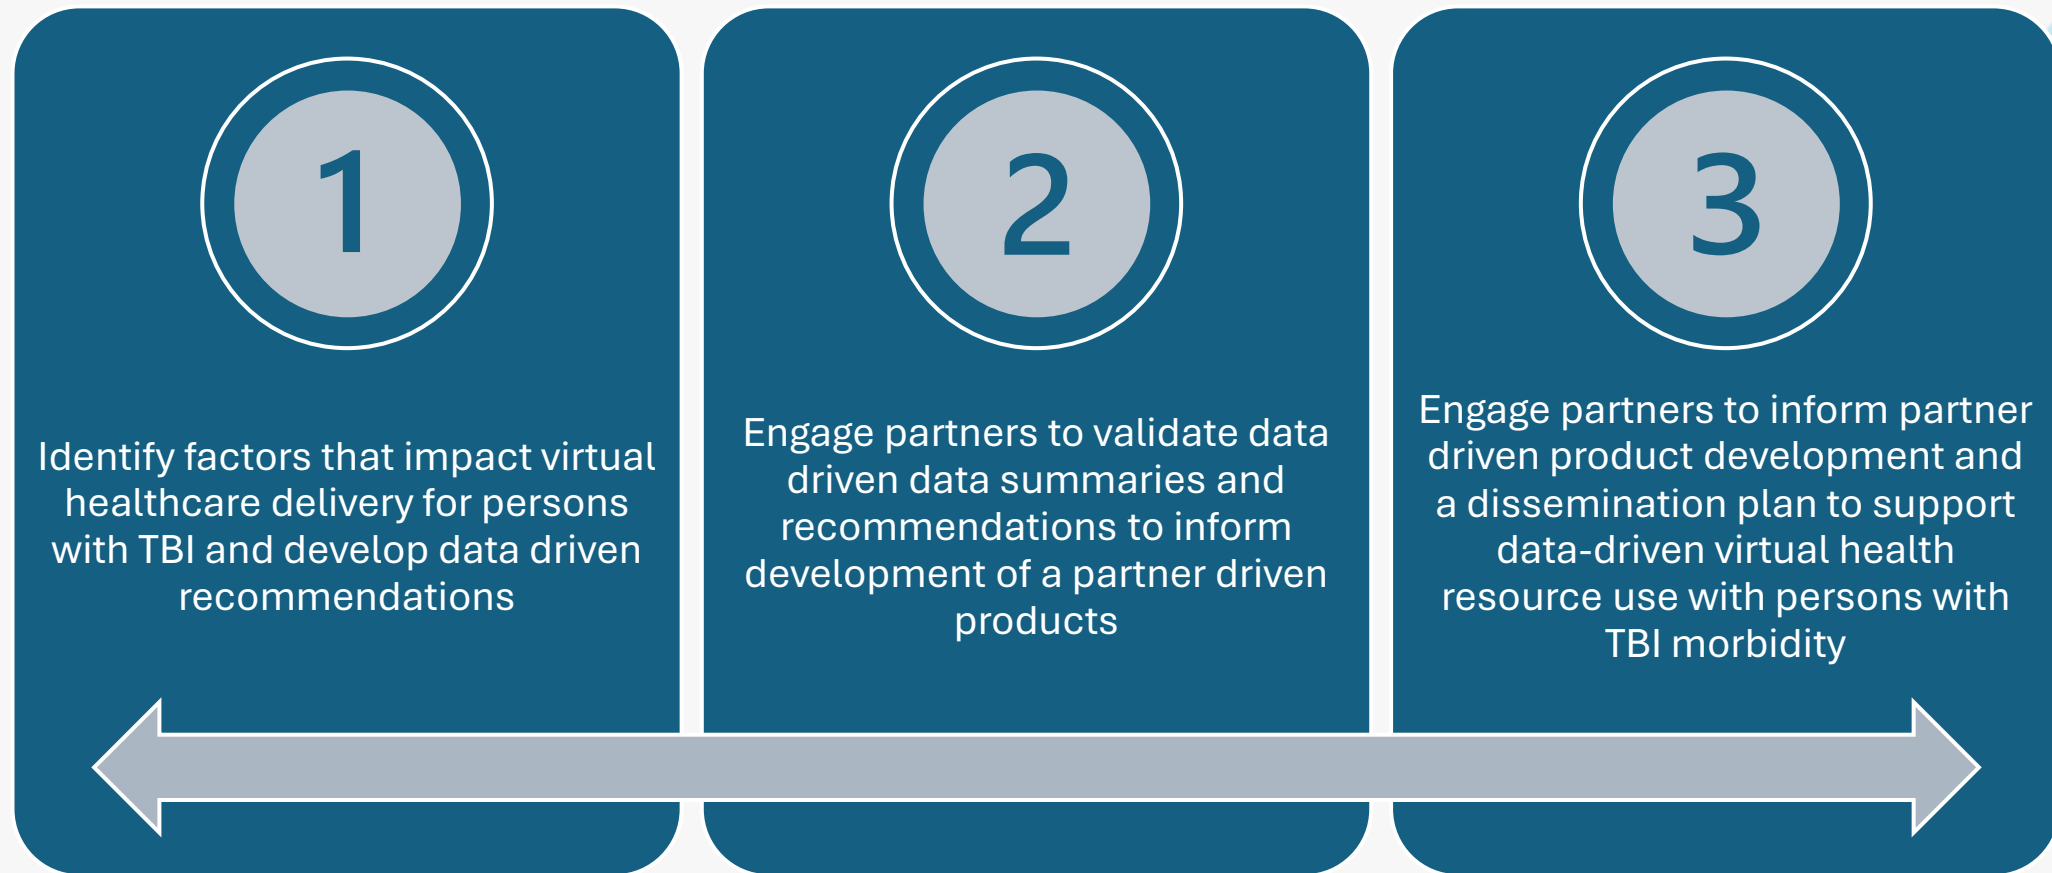

## Process

Leverage existing data to develop a taxonomy of domains and themes relevant to access to virtual healthcare for persons with TBI

## Solution

Analysis will inform recommendations on:  
(1) necessary virtual health resource enhancements;  
(2) policies to inform appropriate virtual health resource use for persons with TBI

# Project 4 Overview

# Partner Engaged Workgroups

IEP, LEP, PPP

IEP & PPP

1

Interview Data  
Analysis &  
Interpretation of  
Findings

6 Months

2

Data Summaries  
& Product  
Development  
Input

6 Months

3

Validate Product  
Grid, Products, &  
Dissemination  
Plan

3 Months

4

Finalize Product  
Grid, Products, &  
Dissemination  
Plan

3 Months

Start Date: July 2024

# Project 4: Methods, Purpose, Products

## HCD PHASE

**Discover  
& Define**

**Develop**

**Validate**

## PURPOSE

Characterize data on using virtual healthcare for persons with TBI

Identify recommendations for clinical & policy decision support

Engage partners to validate products & dissemination plan

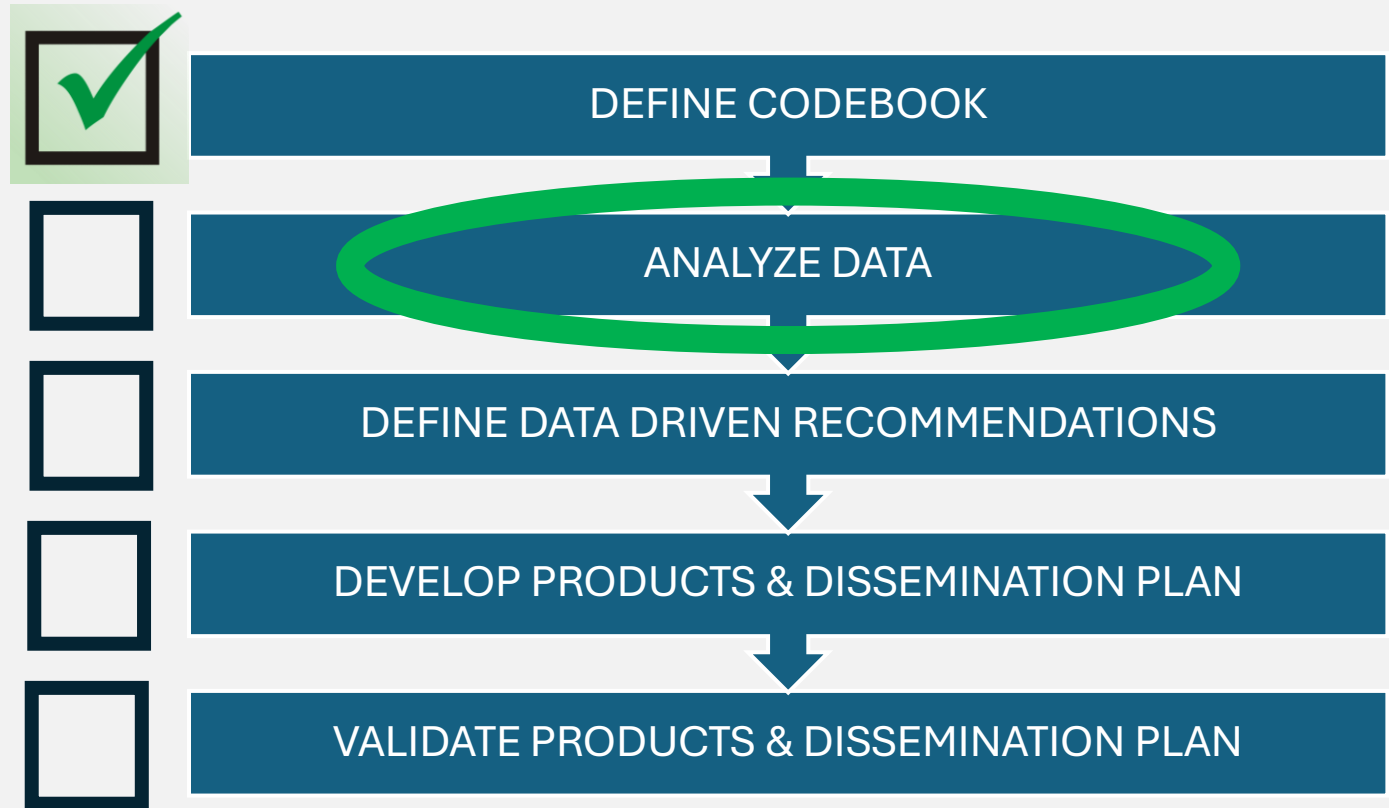

## PRODUCTS

Data summaries

Draft products & dissemination plan

Final products, decision support tools and dissemination plan

# Project 4 Status

Improving Access to Care for Persons with TBI

**Questions?**

***Thank You***
